

NYSERDA

December 02, 2015

Dear Participating Home Performance Contractors,

We invite all participating contractors to attend an upcoming webinar, **BPI 1200 and ASHRAE Standards for the HPwES Program in 2016**, as part of our ongoing Technical Webinar Series. This webinar is scheduled for **Wednesday, December 16, 2015 from 3:00pm to 4:30pm**. [Click this link to register.](#)

Register

As the Home Performance industry matures so does the standards that drive it. BPI and ASHRAE have updated standards the HPwES Program is based on and these changes will have an impact on both the way you interact with your customers and their homes.

With the introduction of the BPI 1200 Standard **Practice for Basic Analysis of Buildings**, it is important to identify the major differences from the soon-to-be retired BPI Building Analysis Standard and how it affects the way you test buildings and provide recommendations. The BPI 1200 Standard incorporates ASHRAE's 62.2-2013 **Ventilation and Acceptable Indoor Air Quality in Low-Rise Residential Buildings Standard** which modifies the way air-tightness is considered.

These Standards will become effective January 1, 2016. Our goal is to make sure that you are familiar with the requirements of these standards and are prepared to deploy them. This webinar will explore the changes and how these new standards impact your projects.

Topics to be covered in the webinar:

- Key differences between BPI 1200 and legacy BPI Standards
- Diagnostic test equipment requirements to comply with the BPI 1200 Standard
- Identifying the differences in ventilation requirements
- Program implementation of ASHRAE 62.2-2013
- Changes to Program forms for data collection

This webinar will be presented by CLEAResult Senior Technical Support Analysts Earl Hicks and Lou Marrongelli. Together they draw from over 50 years of contracting and home performance experience.

Please be on the lookout for future invitations to these technical webinars. For questions, suggestions for future technical webinars or feedback, please feel free to contact CLEAResult Eastern Account Manager, Peter Hoke at [Peter.Hoke@clearesult.com](mailto:Peter.Hoke@clearesult.com) or Western Account Manager, Ryan Moore at [Ryan.Moore@clearesult.com](mailto:Ryan.Moore@clearesult.com).

**About NYSERDA**

NYSERDA, a public benefit corporation, offers objective information and analysis, innovative programs, technical expertise, and funding to help New Yorkers increase energy efficiency, save money, use renewable energy, and reduce reliance on fossil fuels. NYSERDA professionals work to protect the environment and create clean-energy jobs. NYSERDA has been developing partnerships to advance innovative energy solutions in New York State since 1975.
