

NYSERDA

Home Performance with ENERGY STAR®

April 28, 2016

Dear Participating Contractors, Installers, Community-Based Organizations and Other Program Partners:

NYSERDA is conducting a webinar on Monday, May 9, from 3:30 p.m. to 5:00 p.m., to help partner contractors and installers provide financing options to residential customers. New York's Home Performance, PV, Solar Thermal and Renewable Heating contractors are invited to hear from private sector lenders interested in providing financing options for residential energy efficiency retrofits and solar projects. Each lender will discuss their financing product and provide contact information on the webinar, so you can speak with them in greater detail afterwards,

if you may be interested in offering their product to your prospective customers.

Following the webinar, each presentation will be posted at the following online sites:

* Home Performance Contractors: <http://hpwescontractorsupport.com/>

* PV and Solar Thermal Contractors: Solar Announcements for Participating Contractors, <http://www.nyserda.ny.gov/All-Programs/Programs/NY-Sun/Project-Developers/Updates-for-Project-Developers>

* Renewable Heating Contractors: Training Opportunities for Installers/Contractors, <http://www.nyserda.ny.gov/All-Programs/Programs/Renewable-Heat-NY>

The webinar is for informational purposes only. NYSERDA is in no way endorsing or promoting any of the lenders participating in this webinar, nor any of their products.

If you are interested in participating in the financing webinar, contact Deidre Maturo at (518) 862-1090, ext. 3121, or Deidre.Maturo@nyserda.ny.gov. Webinar access information will be provided to participants on May 6. When responding, please indicate if you want your contact information shared with the lenders presenting at this webinar.

We hope that you will be able to attend this important webinar to learn about financing opportunities available for energy efficiency and solar projects as New York State accelerates the growth of clean energy!

About NYSERDA

NYSERDA, a public benefit corporation, offers objective information and analysis, innovative programs, technical expertise, and funding to help New Yorkers increase energy efficiency, save money, use renewable energy, and reduce reliance on fossil fuels. NYSERDA professionals work to protect the environment and create clean-energy jobs. NYSERDA has been developing partnerships to advance innovative energy solutions in New York State since 1975.
