

August 01, 2016

Dear Participating Contractors and Interested Parties:

Consistent with past practice of annual updates, NYSERDA's Assisted Home Performance with ENERGY STAR Program is adopting revised income eligibility limits for 2016.

The State Median Income Eligibility Limits have been updated to reflect the 2015-2016 Weatherization Assistance Program's income eligibility limits. This change will be effective for Subsidy Applications received on or after August 15, 2016.

The Area Median Income Eligibility Limits have been updated to reflect the 2016 U.S. Department of Housing and Urban Development's income limits.

\* This change will be effective for Subsidy Applications received on or after August 15, 2016 for counties in which the income eligibility limit has **increased**.

\* This change will be effective for Subsidy Applications received on or after September 1, 2016 for counties in which the income eligibility limit has **decreased**.

The revised income limits are available [here](#). This document also includes the State and Area Median Income calculations of 120%, which will be used in determining interest rates for Green Jobs - Green NY Financing effective September 1, 2016. More information on the interest rate changes can be found [here](#).

If you have any questions about this announcement, please contact [hpwes@nyserda.ny.gov](mailto:hpwes@nyserda.ny.gov).

Sincerely,

The Home Performance Team

NYSERDA, 17 Columbia Circle, Albany, NY 12203
