

## Home Performance with ENERGY STAR®

Dear Participating Home Performance Contractors,

NYSERDA is offering participating Home Performance Contractors the opportunity to use OptiMiser, Snugg Pro, Cake, and a new version of TREAT as part of a pilot project to introduce new energy modeling software into the New York State market. We need additional users of these modeling tools for the next phase of pilot testing. Auditor is also being considered for use in the Home Performance with ENERGY STAR program, but has an adequate number of contractors participating in the pilot.

If you are selected to participate in this pilot, you will be able to use new software to submit audit and project information to the NY HP Portal. The software provider will have primary responsibility for contractor training and support in the use of the new software. NYSERDA and CSG will help facilitate software training for you and provide you with the information you need to get started.

NYSERDA will reimburse pilot participants up to \$600 to purchase and use new software during the pilot period. If you would like more information about this opportunity, please contact Julie Caracino at [julie.caracino@nyserda.ny.gov](mailto:julie.caracino@nyserda.ny.gov) or call (212) 971-5342 ext. 3090.

Thank you.

### About NYSERDA

NYSERDA, a public benefit corporation, offers objective information and analysis, innovative programs, technical expertise, and funding to help New Yorkers increase energy efficiency, save money, use renewable energy, and reduce reliance on fossil fuels. NYSERDA professionals work to protect the environment and create clean-energy jobs. NYSERDA has been developing partnerships to advance innovative energy solutions in New York State since 1975.
