

Home Performance with ENERGY STAR®

Please be advised that all Contacts who have a valid email address for companies active in the Home Performance with ENERGY STAR Program have been sent this email.

Dear New York Home Performance with ENERGY STAR® Contractors and Partners:

Your company has the opportunity to be highlighted by Green Jobs-Green New York Constituency-Based Organizations (CBOs) doing outreach and customer assistance for the HPwES Program. Their contact information can be viewed by [clicking here](#). The CBOs are updating their "vetted list" to assist their outreach activities. This information will be distributed by the CBOs to homeowners in their target area to help guide these customers in the selection of a contractor.

If you are interested in being included on the CBOs' vetted lists in the areas in which you are willing to work, [please complete the survey by clicking here](#) (use Internet Explorer*). In addition, your company may be asked to participate in a brief phone or in-person interview arranged by the CBO. The purpose of the interview is to future understand your company's business model and for your company to understand the role of CBOs in generating leads and assisting homeowners to complete retrofits through HPwES.

Even if your company is already listed on an earlier version of the CBO Vetted List, please complete the survey with your updated information to be included on the 2014-2015 CBO Vetted List.

If you choose not to complete this survey, your company will not be included on the updated vetted list(s). Please respond to ALL questions included in the survey by the due date, July 31st.

*For the best user experience, [the survey](#) should be completed using Internet Explorer. If you are filling out the survey via Mozilla Firefox or Google Chrome and are having difficulties clicking the Submit by Email button, please follow these instructions: <http://helpx.adobe.com/acrobat/kb/pdf-browser-plugin-configuration.html>

If you have any questions, please reach out to Cara Sherwood, cara.sherwood@csggrp.com or Matthew King, matthew.king@csggrp.com.

Thank you.

About NYSERDA

NYSERDA, a public benefit corporation, offers objective information and analysis, innovative programs, technical expertise, and funding to help New Yorkers increase energy efficiency, save money, use renewable energy, and reduce reliance on fossil fuels. NYSERDA professionals work to protect the environment and create clean-energy jobs. NYSERDA has been developing partnerships to advance innovative energy solutions in New York State since 1975. To learn more about NYSERDA's programs and funding opportunities, visit nyserda.ny.gov or follow us on [Twitter](#), [Facebook](#), [YouTube](#), or [Instagram](#)
