

NYSERDA

Home Performance with ENERGY STAR®

November 14, 2017

Dear Participating EmPower NY Contractors and Interested Parties:

To support Governor Cuomo's 2017 State of the State proposal to serve 20,000 low-income households statewide, the NYS Office of Temporary and Disability Assistance (OTDA) is allocating a portion of Low-Income Home Energy Assistance Program funds to NYSERDA for the delivery of energy efficiency and weatherization services to low-income households.

NYSERDA will deliver low-income energy efficiency services statewide through EmPower NY. For Nassau and Suffolk Counties (Long Island), approximately \$1 million will be allotted, representing an estimated 250 projects.

NYSERDA is seeking participating EmPower Participating Contractors serving Long Island who meet the qualifying criteria outlined in the attached Addendum to complete this work through EmPower. NYSERDA anticipates referrals to be provided between December 2017 and March 2018. All projects must be completed and invoiced before September 2018.

Participating Contractors seeking consideration for this offering should complete and submit the [Long Island Addendum](#) to hpwes@nyserdera.ny.gov no later than November 30, 2017.

Due to the limited nature of this offering, NYSERDA will provide all referrals to contractors. Customers may not be referred into the program by Participating Contractors or outreach organizations. This offer should not be advertised or promoted in order to recruit additional participants. Further, customers may not receive funding for the same measure from other programs.

Please contact your Account Manager or hpwes@nyserdera.ny.gov if you have any questions about this offer.

Thank you,

The NY Residential Existing Homes Team

About NYSERDA

NYSERDA, a public benefit corporation, offers objective information and analysis, innovative programs, technical expertise, and funding to help New Yorkers increase energy efficiency, save money, use renewable energy, and reduce reliance on fossil fuels. NYSERDA professionals work to protect the environment and create clean-energy jobs. NYSERDA has been developing partnerships to advance innovative energy solutions in New York State since 1975.
