Fuel Types: electric, natural gas, oil, propane	✓	✓	✓	✓
Fuel Types: kerosene, wood, pellets, coal	✓	✓ <sup>(1)</sup>	✓	☒

  

Legend	✓	Software can model measure, and output all required HPXML fields needed for NYSERDA
	☒	Software is either unable to model measure, or HPXML output is missing one or more required elements for NYSERDA validation.

\* Please note that this chart shows each HPXML tool's ability to support Program eligible measures and project types based on independent testing that was conducted on each tool to determine Program eligibility. The chart **does not** reflect the total functionality of each tool. The chart will be updated as needed to reflect changes to the Program and to the tools.

\*\* TREAT version 3.4.6 and later

<sup>(1)</sup> Wood and pellets are supported. Kerosene and coal are not.
