

October 16, 2018

NY Residential Existing Homes Programs  
Regional Workshops:  
**Zonal Pressure Diagnostics and Air Sealing Training**  
**October / November 2018**

The NY Residential Existing Homes Program will be holding Zonal Pressure Diagnostics and Air Sealing Training regional workshops in Buffalo, Syracuse, Troy, Poughkeepsie, and the Bronx, for contractors participating EmPower NY and Home Performance with ENERGY STAR®.

Contractors will learn to integrate Zonal Pressure Diagnostics (ZPD) and advanced air sealing techniques into their audits and crew work. The morning will consist of classroom training, where ZPD fundamentals will be delivered, with visual aids. The afternoon session will include a field component, where attendees will be given the opportunity to directly apply knowledge through diagnostics and air sealing activities at a field lab or project site. In some instances, a short drive to the field site will be required. Refreshments, lunch, check-in and networking will begin at 8:30 a.m. The workshop will end at 4:00 p.m.

**Schedule of workshops**

**October 29, 2018**

ECC Workforce Development Green Building  
Technology Center  
4196 Abbott Road  
Orchard Park, NY 14127

The class is designed for Auditors and Crew Leaders that are responsible for identifying air sealing opportunities and following through with air sealing measures. Please RSVP using the links above for the location that you wish to attend. You must respond no later than October 22, 2018.

We look forward to seeing you at one of these workshops as we continually work together to grow the home performance industry.

Sincerely,

The NY Residential Existing Homes Team

### **About NYSERDA**

NYSERDA, a public benefit corporation, offers objective information and analysis, innovative programs, technical expertise, and funding to help New Yorkers increase energy efficiency, save money, use renewable energy, and reduce reliance on fossil fuels. NYSERDA professionals work to protect the environment and create clean-energy jobs. NYSERDA has been developing partnerships to advance innovative energy solutions in New York State since 1975.
