

December 6, 2018

Dear Participating Contractors,

Spray Foam insulation is becoming more popular and widely used as contractors and customers discover its benefits. When installed correctly, spray foam reduces energy bills, increases comfort, and lasts for decades. However, understanding and implementing proper installation techniques is critical to success.

With two sessions, the Spray Foam webinars will inform and educate contractors on proper spray foam applications, as well as inform on code compliance and best practices. These webinars aim to help contractors improve the quality of spray foam projects and decrease project and application related issues.

All staff are welcome, but we encourage trainers, crew chiefs and installers to attend both webinars. Please register using the links below:

Thursday, December 27th - 1:00-2:30PM

[Part 1: Spray Foam Application Requirements - Health and Safety for Spray Foam Projects](#)

Friday, December 28th - 9:00-10:30AM

[Part 2: Spray Foam Best Practices](#)

If you have questions, reach out to Contractor Support at support.residential@nyserda.ny.gov or your Account Manager.

Sincerely,

The NY Residential Existing Homes Team

[About NYSERDA](#)

NYSERDA, a public benefit corporation, offers objective information and analysis, innovative programs, technical expertise, and funding to help New Yorkers increase energy efficiency, save money, use renewable energy, and reduce reliance on fossil fuels. NYSERDA professionals work to protect the environment and create clean-energy jobs. NYSERDA has been developing partnerships to advance innovative energy solutions in New York State since 1975.
