

February 22, 2019

## **2019-2020 Participation Agreements**

Per the January 2019 Program Announcement, all current agreements with Participating Contractors expire on February 28, 2019. For those contractors who have not reapplied, you will not be able to submit new projects to the Program after February 28, 2019.

Once you reapply, you will be notified by NYSERDA of your acceptance and the provisions of the 2019-2020 Participation Agreement will apply. Below is a link to the updated Participation Agreement, which covers the base terms and conditions of participation for Home Performance with ENERGY STAR (HPwES), Assisted HPwES, and EmPower New York (EmPower).

## **Long Island Contractors Needed**

As a reminder, the NYS Office of Temporary and Disability Assistance (OTDA) has allocated approximately \$1 million of Low-Income Home Energy Assistance Program funds to NYSERDA for the delivery of energy efficiency and weatherization services to an estimated 250 low-income households on Long Island.

NYSERDA is seeking active EmPower Participating Contractors serving Long Island who meet the qualifying criteria outlined in the Addendum to complete this work through EmPower. NYSERDA anticipates referrals to be provided between March and July 2019. All projects must be completed and invoiced before September 2019.

Participating Contractors seeking consideration for this offering must be approved under the 2019-2020 NY Residential Existing Homes Program Participation Agreement and should complete and submit the [Long Island Addendum](#) to [hpwes@nyserda.ny.gov](mailto:hpwes@nyserda.ny.gov) no later than February 28, 2019.

### **About NYSERDA**

NYSERDA, a public benefit corporation, offers objective information and analysis, innovative programs, technical expertise, and funding to help New Yorkers increase energy efficiency, save money, use renewable energy, and reduce reliance on fossil fuels. NYSERDA professionals work to protect the environment and

create clean-energy jobs. NYSERDA has been developing partnerships to advance innovative energy solutions in New York State since 1975.
