## **Access to EmPower Projects Prior to Fall 2017**

Dear NYSERDA Participating EmPower Contractors,

NYSERDA will be moving the web servers that host the NYSERDA Empower Project Management Portal (CRIS). On 8/23/2019, NYSERDA will turn off access to the URL <https://cris.nysерda.org> and it will no longer be accessible to participating contractors. On 8/24/2019, the new URL for the site will be <https://crisportal.nysерda.ny.gov/dashboard>.

**NOTE: This does not affect access to or project workflow in the NY HP Portal. Please direct any questions to [hpwes@nysерda.ny.gov](mailto:hpwes@nysерda.ny.gov).**

The following [link](#) details when access to the current URL will be turned off and how to access the new URL. Please review the linked document prior to the change which will occur on August 23, 2019.

Thank you for your cooperation.

NYSERDA's NY Residential Existing Homes Team
