**NY Residential Existing Homes Programs
Heating Systems Commissioning Webinar**
October 24, 2019 - 3:00-4:00 PM

Dear Participating Contractors,

As temperatures drop and heating systems awake from their seasonal slumber, New York homeowners may find that they need to replace their heating system. To ensure quality installations and to prevent callbacks it is expected that participating contractors commission all installed heating systems.

The NY Residential Existing Homes Programs will be holding a webinar, Heating Systems Commissioning for Program participating contractors. This session will cover the use of ACCA Quality Installation Specifications and identify the steps needed for a quality HVAC installation.

All staff are welcome, but we encourage technicians and quality control managers to attend. Please register using the link below:

Thursday, October 24, 2019 - 3:00-4:00 PM
