Make your home or apartment more energy efficient

EmPower+ is a program that helps low and moderate-income households in NY save energy and money through property improvements. EmPower+ is open to homeowners and renters of 1-4 family buildings in New York State.

A small improvement makes a big difference

Just a few energy improvements can save you cash on your energy bills. Here are some examples of upgrades you could receive — at no charge!

- Home Energy Assessment
- New energy-efficient lighting
- Weather-stripping
- CO/Smoke Detector
- Plus, we'll show you additional ways to use less energy in your daily routine, saving you more money

Some households may also be eligible for other improvements at low or no cost, such as:

- Attic, wall, and rim joist insulation
- Air-sealing to reduce drafts
- Health & safety items
- Mobile-home underbelly insulation
- Replacement of inefficient refrigerator/freezers

Are you eligible? Let's see!

Low cost/no-cost energy efficiency improvements are available for low and moderate-income homeowners and renters. To learn more, call 1-877-NYSMART or visit nyscrda.ny.gov/empower-apply and fill out an application today.

Once you're approved, a participating contractor will schedule a free energy assessment of your home or apartment. Your assessment will identify areas of opportunity and pinpoint the ways we can help your home be more energy efficient, healthier and comfortable — and save you money.
