

Empower+ Direct Install Measures

Customer Eligibility

To receive Direct Install measures, customers will need to complete an EmPower+ Application found at nyserdera.ny.gov/empower-apply and be determined a Tier 1 (Low-Income) or Tier 3 (Moderate-Income) customer. In addition, the household must not have received similar measures from another participating contractor within the last 1 year.

Customers receiving electric service through a municipal electric provider may **not** be eligible for direct install measures. Participating Contractors should check with program implementation staff if they have questions regarding household eligibility. The table below represents the pre-qualified direct install measures, max install quantity and pricing.

Eligible Direct Install Measures

Measure	Limit
TRM Tier 1 (Low-Income)- Advanced Power Strip	Limit 2 per home ²
TRM Tier 2 Advanced Power Strip- <i>AV Use Only</i>	Limit 2 per home ²
CO Detector	1 per home
Combination CO/Smoke Detector	1 per home in place of a single Smoke & CO detector
DHW Safety Discharge Pipe ¹	1 per DHW
Furnace filter Slot Cover ¹	1 per home
Furnace Filter ¹	1 per home
LEDs	16 standard/unlimited candelabra (can include 1 nightlight)
Pipe wrap	Per linear ft, 9 ft max (limited to 6' max hot side and 3' max cold side)
Showerheads (handheld or regular) ¹	Quantity not to exceed the # of people in the home
Smoke Detector	1 per home
Sweep Only ¹	As needed, per door; to exterior or unconditioned space
Thermostats (programmable) ¹	1 per zone
Weather-stripping and Sweep ¹	As needed, per door to exterior or unconditioned space

¹ For renters, the installation of these measures requires landlord permission through the submission of a Rental Property Energy Efficiency Service Agreement found in Section 3 of the [Program Manual](#).

² No more than two (2) total Advanced Power Strips can be installed per home (i.e. 2 Tier 1 or 2 Tier 2s or 1 Tier 1 and 1 Tier2)

For current pricing of direct install measures, please reference Section 5.5 of the [Program Manual](#).

Direct Install Additional Measure Requirements

Participating Contractors must evaluate and install select measures where appropriate during an energy audit - at no cost to the household. Measure requirements can be found in Section 5.15 and Section 5.18 of the [Program Manual](#).

For Direct Install project submission, please refer to the NY Home Energy Portal User Guide.
