How to Submit an Application?

Step 1: Navigate to MyEnergy Home Page and Click **Apply Now**

How to Submit an Application?

Get Started

The Applicant must be the Property Owner if the dwelling unit is Property Owner occupied.

* I am submitting on behalf of...

- ☐ Property Owner
☐ Renter

If you are submitting this application on behalf of someone else ("the applicant"), you should only proceed if you have the applicant's express consent to do so. Submitting an application without the applicant's consent may constitute a violation of the Contractor Participation Agreement and could result in termination from the Program.

☐ I certify that I have received the consent of the applicant to submit this application on their behalf. I understand that only the Applicant may sign the attestation that is submitted with this application.

Step 2. Select Ownership Status and Check box affirming consent of the applicant

How to Submit an Application?

Step 4. Enter Assistance Information then click **Next**

Assistance Information

* Have any household members received an award letter for public assistance in the past 12 months? ⓘ

☒ Yes ☐ No

Income-eligible customers who receive benefits from other select New York State organizations serving low-income residents are considered categorically eligible. These organizations include:

* Check all that apply:

- ☐ HEAP (Home Energy Assistance Program)
- ☐ SNAP (Supplemental Nutrition Assistance Program/Food Stamps)/SNAP NYC
- ☐ SSI (Supplemental Security Income)
- ☐ TANF (Temporary Assistance for Needy Families)
- ☐ WAP (Weatherization Assistance Program)
- ☐ PA (Public Assistance)

If an applicant has received benefits from these services and has an award letter dated within the last 12 months, the household is considered income-eligible and can present this award letter as proof of income documentation. A copy of the award letter must be included with the program application.

* Have you recently received a letter from NYSERDA with a referral code? If you don't know what a referral code is or whether you received one, please answer 'No'.

ⓘ
☐ Yes ☒ No

Assistance Information:

- Contractors may only submit applications for customers with categorical documentation

How to Submit an Application?

☐ Select this box if the address above is incorrect. A field to update your project address will then be displayed.

Step 5. Enter **Physical Address Information** and Click **Next**

* Building Type

* Number of Units

* Number of Bedrooms ⓘ

* Number of People in Household ⓘ

Household includes all individuals living in the dwelling unit, except roomers and boarders who rent a room(s) within a dwelling unit are excluded from the household count. Full-time students who can be claimed as a dependent on another's tax return are excluded from the household count for the rental unit.

Physical Address Information:

- Number of People in Household:** If the household includes more than 10 people, please enter 10 as the maximum value.

Eligibility Details

Great work so far, it looks like you are eligible to apply for the EmPower+ Program.

This program helps households save energy and money toward energy improvements made to their primary residence.

- No-cost comprehensive home energy assessments to pinpoint where energy and dollars are being wasted and receive a customized plan to lower energy usage.
- No-cost direct install improvements identified during the assessment can be installed by participating program contractors.
- Funding toward the cost of energy efficiency improvements, including air sealing, insulation, heat pumps, heat pump water heaters, and electrical service and wiring upgrades.

Low-income, single-family households are eligible for no-cost energy efficiency improvements up to \$10,000 per project.

Moderate-income single-family households are eligible for no-cost energy efficiency improvements up to \$5,000 per project.

Additionally, part of this program is enabled through Federal funds for the "Home Electrification and Appliance Rebates" (HEAR) Program. HEAR funding is tied to the address at which this project will be completed and is capped at \$14,000, which may be available to use for qualifying upgrades.

EmPower+ contractors will help you determine necessary improvements and what you are eligible for during the no-cost home energy assessment and prior to starting the project.
